The applicant Angst Inc.

P.O. Box 1030, of Beatty,
Street and No. or P.O. Box No. City or Town

Nevada 89003, hereby make^s application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) 2 April 1982

New York State

1. The source of the proposed appropriation is Underground
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 0.5 C.F.S. second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet N.A.

3. The water to be used for Mining, milling and domestic.
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated N.A.

(b) Stockwater, state number and kinds of animals to be watered N.A.

(c) Other use (describe fully under "No. 12. Remarks") See item #12

(d) Power:

(1) Horsepower developed N.A.

(2) Point of return of water to stream N.A.

5. The water is to be diverted from its source at the following point N.W. ¼ N.E. ¼, Section 11,
Describe as being within a 40-acre subdivision of public

Township 26 North, Range 59 East, M.D.B.&M.; or at a point from which
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

the N.E. Cor. Section 12, Township 26 North, Range 59 East, M.D.B.&M.
bears North 82°-09'-39" East, 6965.09 feet.

6. Place of use Section 14, Township 26 North, Range 59 East, M.D.B.&M.
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Underground source/well with pump
State manner in which water is to be diverted, i.e. diversion structure, ditches and
and motor.
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$20,000.00

10. Estimated time required to construct works..... 2 years.
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use..... 5 years.

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Exploration Mancamp - with a range of 8 to 15 persons.

Exploration Drilling - unit water tanks.

Annual Consumption Estimate - 657,000.00 gallons.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

No perforations shall be put in the production casing from ground level to 100 feet.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.5 cubic feet per second, but not to exceed 28.9 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before March 9, 1992

Proof of completion of work shall be filed on or before April 9, 1992

Application of water to beneficial use shall be made on or before March 9, 1995

Proof of the application of water to beneficial use shall be filed on or before April 9, 1995

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed JUL 15 1991 IN TESTIMONY WHEREOF, I R. MICHAEL TURNIPSEED, P.E.

Proof of beneficial use filed office, this 9th day of March

CANCELLED SEP 24 1999 BECAUSE OF FAILURE OF APPLICANT TO COMPLY WITH THE PROVISIONS OF PERMIT
R. Michael Turnipseed P.E.
STATE ENGINEER

(PERMIT TERMS CONTINUED)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

The permittee shall submit on a quarterly basis the amount of water pumped from the well; the static water level of the well and the flow of Cherry Spring.
